

# Call For Participants

Making meaning out of  
extreme and distressing states  
without medication

75 min(s) to complete

Sincere Gratitude (and  
reasonable travel expenses)

Interview

London, UK

Metanoia Institute

Have you had extremely troublesome and powerful subjective beliefs, typically diagnosed as 'psychotic delusions', and recovered without medication? Making sense of these experiences will no doubt have involved highly sensitive, nuanced, and creative efforts on your part to integrate them comfortably. Your experience could be very valuable to those who struggle with such thoughts, but who would prefer not to take medication - and this confidential study invites you to share your unique...
