European Workers Experiences of Xenophobia in UK Public Sector Jobs

30 min(s) to complete

Sincere Gratitude

Interview

Online

Birkbeck University of London

The aim of the study is to investigate how different modes of discrimination, such as xenophobia, sexism and classism combine to create prejudice for European workers within public sector jobs in the United Kingdom in a safe space. The research also aims to explore whether European workers perceive workplace policies within public sector jobs to minimise discrimination as intended. Your insights will help highlight challenges faced by migrant workers and inform future policy discussions.
