How Well Do You Know Yourself?

30 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of Gloucestershire

This research is looking at the working population, as within employment, people are encouraged to develop personal development plans. Part of the process for developing such plans involves, for example, reviewing your performance, the identification of your strengths and areas of development. This can be made easier by being self-aware. This research is an investigation in to the potential elements that influences a person's self-awareness.
