Experiment

Newcastle upon Tyne, Tyne and
Wear, UK

Northumbria University

We are currently recruiting participants to take part in an investigation of the effects of writing interventions and personality on a variety of health outcomes.

The study requires the completion of questionnaires and the measurement of heart rate and blood pressure on the 1st and 5th days. On the 3 days between you will be required to write for 20 minutes about a particular topic.

One month following completion of the
