How does cannabis use affect long-term wellbeing? WE NEED CONTROLS & USERS

12 month(s) to complete

Cash

Experiment

1-19 Torrington Pl, Fitzrovia,
London WC1E 7HB, UK

University College London

This study involves attending seven sessions over a 12 month period. Two sessions are MRI scans at Hammersmith Hospital, and five sessions are at UCL. If you attend all of the sessions on time you will be paid £425!

This study is investigating the long-term effects of cannabis use on psychological well-being, memory and brain function. You need to be aged 16-17 or 26-29, and either a control, or a cannabis user.
