A case study of Tinder as a dating app for date seekers

3 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Queen Mary University of London

In this research, the researcher is going to analyse the users' behaviour in Tinder. And to analyse the factors of how different behaviour can affect the results to the perspective of participants who used Tinder, depending on the age, appearance, personality, etc. Does the demographic affect the favour of Tinder users? Giving the respondents an idea of how different gender can change the usage of Tinder.

In the way to research, the researcher is planning to explore in both qualita
