Can an eating App + online support groups improve psychological wellbeing?

60 min(s) to complete

£60 Amazon vouchers

Online Questionnaire, Online Task, App, Online Support Group

Online

King's College London

We are looking for individuals who struggle with their weight (BMI > 30). We are testing a new App aimed at improving eating behaviours in combination with online support groups aimed to improve social connection and discuss social issues around weight.

All participants will complete online questionnaires/tasks now and 3 months later. After this the App combined with online support groups will begin for 6 weeks.
