Cognitive Differences Between People With and Without a Hearing Loss

1 hour(s) to complete

£10 Amazon.co.uk Voucher

Experiment

Sheffield, UK

University of Sheffield

We're currently recruiting for a study that looks at cognitive differences between people who do and do not have hearing losses. You will be asked to perform a series of computer-based cognitive tasks and fill in some simple questionnaires about your health and times you've felt forgetful or made simple errors.

TESTING CAN TAKE PLACE IN EITHER LEEDS, NOTTINGHAM or SHEFFIELD.

The experiment takes approximately 1 hour.
