Exploring the relationship
between alcohol and the brain

6 hour(s) to complete

£100

Experiment

University of Southampton

STRATIFY is a brain scanning study looking at how the brain, genes, and different types of thought contribute to mental health. In particular we are interested in understanding the connections between lifestyle factors such as drinking and how it affects the brain. No alcohol will be consumed as part of this study.

Terminus Terrace, Southampton
SO14 3FE, UK
