

Call For Participants

Saturated v Monounsaturated
fat-rich meal and adipose
tissue inflammation

16 hour(s) to complete

Sincere Gratitude

Experiment

Ashby Rd, Loughborough LE11,
UK

Loughborough University

We are investigating how a saturated fat-rich meal, compared to a monounsaturated fat-rich meal, impact metabolic responses in the blood and adipose (fat) tissue.

If you're interested in taking part, you will be invited to complete 5 laboratory visits in total, including 2 study visit days where blood and adipose tissue (fat) samples will be collected.

Participants will be reimbursed for their time
