## The Word Learning Cycle

3 hour(s) to complete

Shopping voucher £10

Experiment

Lifton Pl, Leeds LS2 9JZ, UK

University of Leeds

This study will investigate the effects of short periods of cycling and rest on learning and memory. If you are eligible, you'll be asked to attend 2 sets of learning and memory sessions. Each set is an hour and twenty minutes on the first day, and 10 minutes at the same time the following day. The two sets must be at least a week apart. You'll be asked to wear an accelerometer (a device like a pedometer) in between sessions, and complete a physical activity questionnaire.
