Learning Pi Using Colours

3 month(s) to complete

Sincere Gratitude

Experiment

Online

Aalborg University / Aalborg Universitet

Learning ? (Pi) to many decimal places is a fun and challenging task. There are methods which can be used to help enhance memory. We think using specific learnt colour associations along with other strategies may help increase the number of digits of ? remembered. Training ? takes time and patience; therefore, participants need a genuine interest in learning ?. Please email for more information or if you have any questions. Thank you for your interest.
