

Call For Participants

Inter-relation between
cognitive control & dementia
attitudes in Australia

15 min(s) to complete

Prize draw valued at AUD\$20

Online Questionnaire

Online

Charles Darwin University

You are invited to take part in an online research study about your understanding of and interactions with people who may be diagnosed with dementia. Conducting this study will provide insight into the factors that affect our attitudes towards people with dementia. This information may guide future education campaigns related to dementia. You will be provided with a set of words and asked to rate them in response to a question.
