How do musicians write music?

1 hour(s) to complete

Sincere Gratitude

Other

Online

University of Nottingham

This study is to investigate the working processes of people composing music using music software. It is designed to discover how you think about composing, what situation you compose in, and what methods you use to do it. You don't need to be a traditional "composer" - if you write any music yourself, whether that's rock, dance music, game soundtracks, whatever - I'd like to watch you do it.

In this study I will visit you a small number of times for one hour sessions in the location
