Discovering Gender Differences In Virtual Eyewitness Testimony Scenarios

10 min(s) to complete

Sincere Gratitude

Online Survey

Online

Heriot-Watt University

The purpose of this study is to understand the difference between how well men and women can recognise faces.

If you agree to participate you will be presented with trials that work like a virtual police line-up.

Each trial consists of six faces: they will appear on the screen one at a time for one second, there will then be a short interval and a final face will appear.
