Communicating the health risks associated with being overweight

30 min(s) to complete

Sincere Gratitude

Online Interview

Online

University of Aberdeen

Do you have experience discussing your weight and its possible health risks with a Healthcare Professional (i.e. GP's and practice nurses) or have you not yet had this discussion but would like to?

I am looking for volunteers to participate in an online interview, exploring the general public's views and experience of the methods used to communicate overweight by Healthcare Professionals.
