University College London

This study aims to explore thinking styles in women who have recovered from Anorexia Nervosa and women who have never had any eating disorder. The study involves an initial brief interview with the researcher via Skype or over the phone (20 minutes), followed by a set of online tasks and questionnaires (30-45 minutes). Participants will have the choice of being entered into a draw to win one of ten £10 Amazon vouchers or having a donation made to an eating disorders charity.
