Health beliefs of people who  
have one sibling with an  
autoimmune disease

15 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of Surrey

This study aims to explore health beliefs and behaviours of people who have one sibling with an autoimmune disease, but not a personal diagnosis themselves.

Autoimmune diseases include rheumatoid arthritis, type 1 diabetes, Crohn's disease, ulcerative colitis, lupus, multiple sclerosis, Hashimoto's, Graves' disease, psoriasis, coeliac, vasculitis, Sjögren's syndrome, Addison's disease and more.

The study usually takes 10 - 15 mins, involves selecting choices and writing up your own...
