Perceptions on Terrorism in the West

15 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of Exeter

The study aims at analysing research methods on current perceptions of terrorism in Western countries. Since the rise of IS and attacks in France and other Western countries, the issue of terrorism can be found in the media on a regular basis and is being continuously discussed at the political level. It is the goal of the study to examine how the public is viewing issues surrounding terrorism and how the way we view terrorism is changing our day-to-day life.
