What is the impact of mental health diagnoses on people who receive them?

20 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Roehampton University

We are developing a scale to measure of the impact of mental health diagnoses on those who receive them.

Our aim is that the measure can be used for both clinical and research purposes. Clinically, it is hoped that the use of this scale will empower people who receive diagnoses and encourage a dialogue with professionals on the experience of receiving and having them. Research-wise, we are hoping to broaden knowledge on diagnosis from the point of view of people with
