## Developing a Dental teams' Skills in Delivering Prevention Questionnaire

60 min(s) to complete

Sincere Gratitude

Telephone interview and online questionnaire

Online

Queen Mary University of London

The I-SPY (Improving the Skills of dental teams to deliver Prevention to Young children) training programme aims to improve the skills and confidence of dental hygienists and therapists in delivering prevention to families focusing on supporting behaviour change. Before we test this programme, we need to develop a questionnaire to assess how effective the programme is. The aim of this research study is to develop this questionnaire and to involve dental teams to create and to test it .
