Invisible bodies: narratives of intersex youth, their parents & physicians

45 min(s) to complete

Sincere Gratitude

Interview

Basel, Switzerland

Universität Basel

In this study, we would like to find out more about the experiences, the needs and possible concerns of adolescents and young adults with a variation of sex characteristics or intersexuality and their families. For this reason we aim to conduct interviews with them, and their parents. The interviews will generate information about what is important to them and indicate what aspects of care need further improvement. The ultimate aim is to empower adolescents and young adults.
