Dear Parents/Caregivers,
The purpose of this research is to develop a better understanding of parent's thinking about their child's use of touch-screen technology (iPad/tablets/smart phones). Filling in this online survey will take approximately five minutes. Please feel free to forward the link to any other parents with young children below the ages of 5. I know how busy parents and carers are with their pre-school children so I really appreciate your time in filling out this quick...
