Online Questionnaire, app-based study

Online

Deakin University

This study aims to track how often you talk about your appearance and the effects that might have on your body image.

The study has two components:

1. A baseline survey that takes 15 minutes to complete and is run online.
2. Regular mini-surveys delivered through a smartphone app. There are six per day for one week but each survey typically takes less than 1 minute to complete.
