fMRI Virtual Reality Study

180 min(s) to complete

£90

Experiment

Wellcome Trust Centre, 12 Queen's
Square, London WC1N 3AR, UK

University College London

Join us in this fMRI study investigating how people learn about the relation between situations and mildly uncomfortable electrical stimulations in their environment.

- Inside the scanner you will engage with VR scenarios designed to enlighten our understanding of human learning and decision-making.
- Whilst lying in the scanner for 1 hr, you will perform a simple task on the screen, and will be exposed to mild electric stimulation on the foot at certain time points in the
