gift card at the end of session 2.

Experiment

Online

University of East London

In this study you will take part in two experimental sessions, on consecutive days (e.g., 1.5 hours on a Monday & Tuesday). You will sit in a comfortable chair with a few electrodes on your (a bit like wearing a swimming cap) for 20 minutes whilst your brain is stimulated. We will then take the electrodes off and you will start a few short computer tasks which include brain-teasers and a memory test. The session will last for approx. 1.5 hours and you will do the same thing on the second...
