

# Call For Participants

## An Immersive Game-Based Simulation for Cybersecurity Awareness Training

1 hour(s) to complete

3 prizes \$100 each

experimental study

Online

Southern Illinois University

The participants will experience Sentinel Office Security game as an immersive information assurance training designed to create information security threat awareness. The game is mainly focusing on changing user intended behavior concerning the cybersecurity best-practices in the workspace. In the role of a security inspector, the participant is tasked to trace the progress of an on-going cyber breach and catch the hacker by scrutinizing various office environments, identifying cyber threats.
