Test a new smartphone app
and help improve surgical care

30 min(s) to complete

£25 Shopping voucher

Pre and post surgery - Short
questionnaire and reflective
diary or telephone interview

Online

King's College London

Background

Being at the centre of their care, patients having surgery and their families/carers can help NHS staff to deliver safer care and to ensure the best possible surgical experience.

Project aims:

To explore the use of a smartphone app, called MySurgery (free to download on the App Store), which informs surgical patients and their families/carers of the actions they can take to help improve experience, safety and outcomes when having a surgical
