Turner Syndrome and reproductive decision-making

60 min(s) to complete

Sincere Gratitude

Interview

United Kingdom

De Montfort University

This is a UK-based study exploring the way that women with TS make decisions about how to have a family and what they think about the options open to them.

I'd also like to talk to mothers of girls with TS to see how they have handled their daughter's fertility issues within the family, and what they think of their daughter's future reproductive options.
