

Call For Participants

Effect of information type and message type on predictors of condom use

15 min(s) to complete

Prize draw - £30 Amazon voucher

Questionnaire

Online

University of Aberdeen

To ensure that public health messages are effective, we need to understand what types of message work best. This study involves reading a public health message about safe sex and filling out some questionnaires on the same topic.

You will be entered into a prize draw to win a £30 Amazon voucher for participating.

Please be aware that this study also contains information about sexually transmitted infections and unwanted
