

Call For Participants

When is careers advice most useful to adolescents and young adults?

30 min(s) to complete

Prize draw - 1 x £50 shopping voucher, 5 x £10 shopping vouchers

Experiment

York, UK

University of York

Our study will explore two factors that may affect how students choose the career paths they do: their Theory of Mind and their birth order, or position in the family. Theory of Mind will be assessed using a cartoon-based, computer task. There is also a test of verbal and non-verbal intelligence, and a short questionnaire. The research takes 30 minutes in total. I am based in York, but am happy to travel to test participants - please do get in touch and ask - I will do my best to reach everyone.
