RESTART - an emotional  
decision making drug study

7 day(s) to complete

£170 + chance to win £10

Experiment

Warneford Ln, Headington,  
Oxford OX3 7QQ, UK

University of Oxford

We are looking for volunteers aged 18 - 65 who are currently feeling depressed despite taking antidepressant treatment to participate in a study investigating the effects of a new medication on emotional decision making.

The study involves taking medication for 7 days and three visits which involve computer-based psychological tasks and questionnaires.

Re COVID-19: we have numerous
