Online Questionnaire

Online

University of Nottingham

I'm looking for professionals who work in a forensic setting and have direct contact with patients/clients/prisoners to take part in an online survey.

The study is exploring the attitudes of professionals working in forensic settings to sexual offending. The study would involve you answering a number of questions, reading a vignette and then answering some questions relating to the vignette. It is anticipated that this would take no longer than 15 – 20 minutes.
