

Call For Participants

Investigating evaluation of
learners' knowledge in comp.
supported learning

30 min(s) to complete

Sincere Gratitude

Experiment

Online

University of Aberdeen

I would like to invite you to take a part in my current study which is based on collaborative learning activities. The study aims to investigate "Evaluation of learners' knowledge level based on their task/problem solving activities in computer supported learning systems" .

In the study we will ask you to register and login to solve a Sudoku puzzle, when you finish you have to give an answer on how difficult do you think the puzzle is. That's it..
