

Belief-Updating and Health controls need

45 min(s) to complete

£15 Amazon Voucher

online game

Online

King's College London

Complete 3 online games (45 minutes) to get £15 Amazon voucher!

We are investigating whether belief-updating and speech are altered in psychosis patients compared to healthy controls.

You will complete a Space Game, a Speech task, and a card game-all fun and easy to do just using your own device!

We are looking for healthy control participants who are between 18 and 40 years old, have never experienced psychosis and live around Leisham, Coydon and Camberwell.
