

Call For Participants

The Impact of CBT on Shock-Potentiated Neural Circuitry

7 hour(s) to complete

£75 for full participation.

Experiment

Queen Square, London WC1N
3AH, UK

University College London

We are looking for participants with persistent anxiety to take part in our research study on the effects of psychological therapy on learning and emotional processing. It is hoped that this research will contribute to an improved understanding of anxiety and its treatments. Participants will undergo behavioural and neuroimaging (functional magnetic resonance imaging) testing before and after a period of a few months.
