

Call For Participants

Can a novel dairy fat supplement improve your heart and brain health?

12 hour(s) to complete

£100 Amazon voucher on completion of the study

Experiment

Loughborough LE11 3TU, UK

Loughborough University

This study will investigate whether a novel dairy fat supplement can improve heart and brain health (Dairy study).

Eligible participants be invited to complete:

- 45-min screening visit
- 30-min familiarisation visit
- Four x 1.5-hour study visits (after a 12-hour overnight fast). These will involve body composition measures, blood sample collection and pain-free, non-invasive assessment of heart health
- AND four x 1-hour computer-based tests
