

Call For Participants

Learning in a social world: A psychometric evaluation

120 min(s) to complete

You will receive a compensation of £10 for each visit you complete. You will also be...

Behavioural testing

Centre for Neuroimaging Sciences, Camberwell, London SE5 8AG, UK

King's College London

We are recruiting healthy volunteers (16-30 years old, right-handed, males) to take part in a behavioural study characterizing the test-retest reliability (i.e. ability to replicate the same result more than once in the same situation and population) of a psychological paradigm assessing learning in social interactions. Participants will be compensated for their time plus the additional gains made during the psychological paradigm.
