

# Call For Participants

What are the health needs of middle-aged and older people with cancer?

45 min(s) to complete

Prize draw

Telephone interview or Online questionnaire

Online

University of Glasgow

Could you help us?

LifeChamps is a research study that aims to develop a support service for middle-aged and older people with cancer and their families/friends after cancer treatment. Please help us understand what health needs, priorities and care requirements middle-aged and older people have after cancer treatment. What aspects of your health care would you want the service to help with?

Participation is either a short online survey or telephone interview.
