Speaking or singing? Unveiling Individual Variation in the S2S Illusion

1 hour(s) to complete

£10 Amazon voucher

Experiment

Canterbury CT2, UK

University of Kent

Are speaking and singing always easy to tell apart? In this experiment, you will be listening to a series of different sentences in English, each looped with 8 repetitions. When listening to a loop, you might have an experience of the sentence melody changing from spoken to sung. We would like you to tell us when it happens (or that it doesn't).
