Activity recognition study

60 min(s) to complete

£20

Experiment

Sussex Innovation Center, 60
Science Park Square, Brighton
BN1 9SB, UK

Emteq

Here we are testing how new wearables could predict symptoms of Parkinson's disease. You don't have to have Parkinson's disease to take part

You will be asked to attach devices that track your movements. You will then be asked to simulate a parkinsonian gait whilst performing different activities such as walking, helping our systems recognize these behaviours in others.

Two-meter social distance will be
