Smartphone study: Effect of Dieting on Appetite

1 week(s) to complete

Upto £25 in Love2Shop vouchers

3 5 minute assessments per day taking place on a loaned smartphone device during a week...

Eleanor Rathbone Building,
Liverpool L7, UK

University of Liverpool

We are looking for overweight individuals to participate in a study investigating the effect of an intermittent fasting diet on daily fluctuations of appetite-related sensations within their daily lives.

What is the purpose of this study?
The purpose of this study is to look at how feelings of appetite change throughout the day during dieting outside the lab using a smartphone app
