

Call For Participants

Can belief systems impact
depressive symptomology and
anxiety levels?

20 min(s) to complete

I will not be able to pay you for
participating in my research, but
your participation...

Online Questionnaire

Online

University of East London

This study will look at the relationship
between belief systems and psychological
well-being, to see if a belief system or no
belief system is an indication of depressive
symptomology and anxiety levels.
