## Cognition, Mood and Narcolepsy

20 min(s) to complete

Prize draw £50 Amazon Voucher

Online Questionnaire - 2 online questionnaires and 2 computer based tasks

Online

Canterbury Christ Church University

We're investigating the relationship between mood and cognition (attention and working memory) in people with narcolepsy. We are currently looking for people who DO NOT have narcolepsy to complete a series of questionnaires and interactive tasks that shouldn't take any longer than 20 minutes to complete.

We are looking for females aged 25 - 65 with secondary school (GCSEs/GED) or college/a-level equivalent qualifications and do not have a health condition that affects
