Factors linked to engagement
in health behaviours linked
Covid-19

20 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Liverpool John Moores University

Investigating the role of attitudes, social influences and confidence in current and future participation of health protective behaviours associated with Covid-19. You are being invited to take part in a study to understand individuals' social influences, attitudes towards, and confidence in participating in behaviours advised by the UK government to reduce contracting and transmitting Covid-19.
