Toward Understanding The Indian Negotiating Style

15 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of Hull

This on-line survey is completely confidential and should take no more than 15mins to complete. It appraises the negotiating style of Indian business managers during the international commercial negotiation process. The ultimate objective of the study is to provide guidance on developing appropriate strategies when negotiating in India. The results will be used in my final year thesis, as part of my studies in International Business.
