

Call For Participants

Why do we get anxious in social situations?

75 min(s) to complete

£12 Amazon voucher

Experiment and Questionnaires

Online

King's College London

This online study seeks to gain a better understanding of why some people feel anxious in social situations. We are inviting autistic adults to take part in our online study.

You will be asked to complete an online video-based computer activity, a short word activity and some questionnaires (approx. 75 minutes). You will receive a £12 Amazon voucher via email for completing the study.
