

Call For Participants

Co-design with parents to
develop digital interventions
for abdominal pain

90 min(s) to complete

£50 in amazon vouchers

workshop

The Stables, 28 Britannia St,
London WC1X 9JF, UK

University College London

The aim of this project is to run a co-design workshop with the parents of children who suffer with abdominal pain to inform the development of an app which would provide tailored intervention for children with abdominal pain. The methodology used will be from a codesign as well as anthropological approaches. The project protocol is an individual workshop and interview. This will be an 'in person' study where participants will be asked to complete a series of short tasks.
