Minority stress, anxiety and depression in women - in-person study

20 min(s) to complete

£5 Amazon voucher

Experiment

London SE1 9RT, Spojené královstvo

King's College London

Are you a cisgender lesbian, bisexual or heterosexual woman aged 18+ living/working in London? If so, take part in a paid in-person study at Guy's Hospital Campus (Next to London Bridge station). The study involves answering questions about mood, depression and anxiety, and watching a stress induction or a neutral video. If you are lesbian or bisexual, you will also answer questions about your experiences of being a sexual minority. The study takes 20-30 minutes.
