

Call For Participants

Reading with Dyslexia

40 min(s) to complete

Cash £10

Experiment

Trent Building, Jubilee Ave,
Nottingham NG7 2RD, UK

University of Nottingham

This study aims to explore certain aspects of reading with dyslexia, therefore it involves reading text (silently off of a computer screen) while a camera monitors participants' eye-movements. There are two additional cognitive tasks involved and the whole procedure takes around 40 minutes. Participants are reimbursed for their time and effort.
